Offhire Units List Screen

Container Maintenance List Screen

Depot Inventory Report Screen

The screenshot shows a web browser window titled "Location Inventory - Windows Internet Explorer". The address bar displays "http://localhost:8081/beacon/Report/locationinventory.do". The page content includes a "Location Inventory" header, two tabs for "Summary View" (selected) and "Detail View", and two dropdown menus for "Location Type" and "Tank Status". Below these is a table with the following structure:

		TANK CONTAINER FULL FRAME			TOTAL
		TANK 1500 LTR	TANK 2000 LTR		
A.B.A.C SERVICES LTD (DEPOT)	TRANSIT	0	1	0	1
ABUNSA (DEPOT)	DMIBRE	0	0	1	1
IFE - INDUSTRIA DE PROCESOS ECOLOGICOS (DEPOT)	AVAILABLE	1	0	0	1

At the bottom of the browser window, it shows "Users Logged On - 1" and "©2008 BureauEye". The status bar indicates "Internet" and "100%" zoom.

Technical Genesys

Genesys Package has been designed using a Model-View-Controller architectural pattern to make use of Enterprise Java Servlets, Apache Struts framework and Hibernate patterns. The Packages connect to a single MySQL data source that can be accessed globally by any secure PC on the Internet or Intranet.

A Tomcat Apache Version 5.5 Web server powers the Genesys Package. The Web Server is scalable from single-user, to multi-user, guaranteeing that it can expand to meet any business requirements.

Tailor Made Genesys

Should the Genesys Package not fully meet your business needs the Packages can be easily enhanced using our consultancy and gap analysis process.

Genesys can be seamlessly integrated into a corporate image website to allow secure access, for Customers, Manufacturers, Warehouses, Depots or other Logistic parties.
